

Not all spark plugs are created equal.

There's a common misconception that the best choice for replacement spark plugs is the one made by the original equipment manufacturer. But did you know that in some cases, the OE manufacturer's replacement plug is not exactly the same as the plug that came on your vehicle?

Compare feature-for-feature and you'll see that Bosch Platinum is the best choice for your vehicle.

OE Fine Wire Technology

Bosch Platinum Spark Plugs are the newest member of our OE fine wire spark plug family. From the brand trusted in the world's most advanced engines, Bosch Platinum Spark Plugs are engineered to provide you with improved ignitability and performance. The OE fine wire platinum design delivers optimum fit and function for 2x longer service life compared to standard copper plugs. And, with a 4-year performance satisfaction guarantee, you're assured lasting performance.

Feature

Center electrode:

- 360° continuous laser welded platinum tip
- Fine wire design
- Copper core

Ground electrode:

- Tapered shape
- Yttrium enhanced
- Copper core (when required)

Nickel-plated shell with rolled threads

Ribbed insulator design

4-year performance satisfaction guarantee

Benefit

- Promotes durability and long life
- Delivers improved ignitability and performance life
- Provides broader heat range to resist pre-ignition

- Reduces flame shrouding for improved combustion
- Resist wear
- Provides broader heat range to resist pre-ignition

Provides complete anti-seize and corrosion protection

Prevents misfires due to flash-over

Gives you miles of worry-free driving
